### **DETAILED ACTION**

1. Applicant's election **without** traverse of Invention I, claims 1-9 in the reply filed on 14 June 2006 is acknowledged. Claims 10-18 are withdrawn from further consideration as being directed to a non-elected invention.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the side edges of the sleeve recited in claims 1, 5, and 7, and the fold line of claim 4 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. The drawings currently show a tubular sleeve with no side edges shown.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim 2: Davoren discloses sleeve **20** adapted contain a newspaper **36**.

Claim 3: Davoren anticipates advertising indicia on an outside surface of the sleeve (Col. 6, lines 15-18).
